

SeniorNet is pleased to initiate a new series of discussions based on the stimulating program [Justice Talking](#) : the public radio program about law and American life.

We host discussions on our web site about programs that are broadcast on national public radio and through the Internet.

Our first discussion topic, in October 2007, was on [Endangered Animals](#) based, in part, on the Justice Talking program "Does the Endangered Species Act Work?" ([NPR audio and transcript](#))
