

On this page I have collected what I consider to be sites that are valuable to the Introduction to the Internet Class here at the Costa Mesa Learning Center. In addition I have collected a number of Senior Resource that I feel will be of great help to our seniors here and any other senior that stops by our site for a cyber visit. Hope you enjoy these sites as much as I did assembling them. If you have any suggestions for appropriate sites, or you have found these links to be helpful, feel free to email me.

Palatine, Illinois SeniorNet Learning Center's
[SENIOR INFORMATION RESOURCES](#)

An excellent collection of Resources!

Ewing, New Jersey SeniorNet Learning Center's
