

Torrington SeniorNet provides adults 50+ access to and education about computer technology and the Internet to enhance their lives and enable them to share their knowledge and wisdom.

SeniorNet is an international non-profit organization designed to teach our Senior citizens the ways of computer and the Internet. It is a program for Seniors, taught by Seniors, in small classes, at a speed and in language that Seniors can understand and follow.

More than 4,500 people work throughout SeniorNet Learning Centers, as volunteer instructors, coaches, administrators, and web site discussion leaders, community supporters and technicians. SeniorNet would not exist without this network of volunteers who dedicate countless hours to helping others learn to use computers and the Internet.

All our instructors and coaches are Seniors just like the students ... they are all volunteers, some who have completed and learned from the program itself.

HELP WANTED

The SeniorNet is in need of people willing to share their knowledge of Scanner and Digital Camera with Seniors.

Your help would be appreciated by the Seniors waiting to enjoy these programs. Become an Instructor. It is not a hard job and the satisfaction of helping others is a great reward.

Office hours are Monday - Thursday 9:30 to 11:30 in Lab I. Telephone 860.584.7895 ext 126.

Monthly meeting is the first Friday of each month. All SeniorNet members are welcome to attend the meeting.
