

On Thursday, April 9th, 2009, SeniorNet was pleased to release the Leadership Exchange upgrade. The Leadership Exchange is a key component in the effort to provide education and access to computer technology through SeniorNet Learning Centers by providing Curriculum Support, Software, Marketing Exchange Support and sharing best practices.

Leslie M. Smith, SeniorNet Chairman of the Board of Directors stated, "The migration to our new website platform allows us to utilize the most recent developments in administrative management tools, and provides the benefit of being able to quickly and easily upload and incorporate new course material and revisions to the curriculum."

Additional security features provide the capability to monitor individual usage of the Leadership Exchange, as well as the ability to collect statistical data which will help to make more timely and efficient use of the Leadership Exchange.
