**Our most recent partnerships are with -- GrandMentor**, a program that offers senior volunteers the opportunity to read and discuss high quality children's picture books with underserved elementary school children over Skype. This is a quintessential example of the power and influence that seniors can demonstrate in helping our youth...and a great way to give back. Get involved -- go to <http://seniornet.org/grandmentor.html> to engage.

Enhance your life and make a difference in a child's life. This is a SeniorNet members exclusive program.
