Volunteers Needed for Curriculum Development ...

SeniorNet's Curriculum Development Department is looking for volunteers who would like to join us in developing new curriculum for our SeniorNet Learning Centers.

Our aim is to meet the needs of both our current student membership, incoming 'boomers', as well as the challenges of our ever changing technology scene. We are looking for people who understand those needs and would like to share their knowledge with all our SeniorNet Learning Centers.

Be it a single product or several, your knowledge is more important than your writing skills.

If you are interested in developing course manuals and workshops please contact Hank Clemente at CurriculumSupport@hq.seniornet.org.

Increase Awareness for your Learning Centers with SeniorNet Branded Print Templates ...

The SeniorNet/Vistaprint portal is for the exclusive use of SeniorNet Learning Centers. Access to the portal is available to all Learning Center Leaders through Leadership Exchange. The print products include Brochures, Flyer, Rack Card and Post Card. To download and view product samples click here: <http://tinyurl.com/9e729pn> and click the download arrow on the far right (Allow a few seconds for the download to complete).

Drive Membership With Two New Course Offerings Now Available ...

SeniorNet's Curriculum Department has recently completed two new course offerings that will soon be available at your local SeniorNet Learning Center: "Digital Photo Editing for Beginners" and, "Video Editing and Movie Making for Beginners".

The courses use MS Windows Live Photo Gallery and Windows Live Movie Maker programs which are included in Microsoft's Windows Live Essentials, a FREE download from Microsoft.

Organize, edit and share. Windows Live Photo Gallery supports many formats so you can import your photos from your camera, mobile phone, or camcorder directly to your computer.

Photo Gallery makes it easy to organize and edit your photos so they look their best, Then, using the video editing features available in Windows Live Movie Maker, we show you how to edit videos and combine them with photos into a single movie (including titles, credits and music) to enjoy and to share with family and friends.

Council House, SeniorNet - Suitland, MD – Launched May 2011

Tara Maxwell Exemplifies Center Leadership

She has been recognized by federal, state and local government officials for her dedication in support of seniors. She goes above and beyond to help, guide, and support seniors as they engage computer technology.

One of the things that we appreciate about Tara – is that she always reaches out to support SeniorNet nationally. Starting with ensuring that her center was represented on Capitol Hill last year at our 25th Anniversary Celebration – to her recent willingness to pilot new products.

Tara we salute you for all you do ...

Keeping Seniors Safe...

Learn about the sophisticated 21st century scams targeted directly at older adults.

Click Here to Learn More

Did you know that older adults and seniors are disproportionately targeted by scam artists? Whether it's a phone call, an email, an ad, a fax, or a text message, con artists today utilize all of the outlets the 21st century offers to perpetrate fraud against us. And, con artists count on older adults to be uninformed or naïve, making for an easy target. Don't give them the

satisfaction of being right.
